

THE BRAIN IN CRANIO-SACRAL REFLEXOLOGY

BY DR MARTINE FAURE-ALDERSON

FOUNDER OF CRANIO-SACRAL REFLEXOLOGY (CSR)

A rare opportunity for all Reflexologists to study the Brain in CSR with Dr Martine Faure-Alderson; her courses are usually for CS Reflexologists.

Even at age 80 she continues to develop new courses and protocols and her latest new addition to Reflexology is a **unique** mapping of the Brain.

In the last few years she has researched specific points of the brain relating to Consciousness, Emotions and dysfunctions of the lobes; on the hands and feet.

The course consists of two parts. **She will be teaching Part 1** for the first time in the UK and as students who attend her courses all over the world will agree, is an opportunity not to be missed!

PART 1 – THE BRAIN & CONSCIOUSNESS

AT REGENTS UNIVERSITY LONDON - 24 & 25 OCTOBER 2015

**CONSCIOUSNESS IS ESSENTIAL.
WITHOUT IT, LIFE WOULD MAKE NO SENSE**

AN ANATOMICAL ANALYSIS OF THE BRAIN WILL ALLOW US TO KNOW ALL FUNCTIONS OF THE MAIN PARTS STUDIED AT THE COURSE WITH THEIR INTERACTIONS:

**THE AMYGDALA, HIPPOCAMPUS, THALAMUS,
CENTRAL TRUNK, CEREBELLUM AND CORTEX**

ALL THESE PARTS WORKED TOGETHER WITH REFLEXES OF THE FEET AND HANDS ENHANCE BETTER CONSCIOUSNESS.

TWO COMBINED PROTOCOLS WILL BE STUDIED TO THIS EFFECT.

SEAT OF CONSCIOUSNESS ON FEET

PART 1 – THE BRAIN AND CONSCIOUSNESS

REGENT'S UNIVERSITY LONDON
INNER CIRCLE, REGENT'S PARK, LONDON NW1 4NS
SATURDAY 24 & SUNDAY 25 OCTOBER 2015

Course Fee £300 (Manual included)

Day 1	Day 2
08.30 Registration 09.00 Start 11.00 Coffee break 13.00 Lunch 15.30 Tea break	09.00 Start 11.00 Coffee break 13.00 Lunch 15.30 Tea break
17.00 Finish	17.00 Finish

Lunch will be for one hour and there will be a mid-morning and mid-afternoon break each day. The University Campus has a very reasonably priced canteen for teas/coffees and lunch or you can bring your own.

PART 1 – THE BRAIN & CONSCIOUSNESS COURSE PROGRAMME

- The Brain an Unusual Organ; Positional Anatomy; The Functional Brain; Brain Cells; Nerve impulses / Neurotransmitters
- Brain Structures - The Thalamus • The Hypothalamus • The Pituitary and The Brain Stem • The Cerebellum and The Limbic System • The Limbic Lobe and Hippocampus • Cerebral Cortex
- The Brain - • On the Big Toe • On the Foot • On the Hand
- Consciousness; The Seat of Consciousness; The Alterations of Consciousness
- Feel the World; Oxygenation and Glucose Feed
- Pain; Regulation; Emotions and Feelings; Language and Communication; Sleep
- Healing through the mind (meditation / placebo / neurofeedback / hypnosis)
- Some frequent pathologies accessible through reflexology:
(headaches, migraines / disorders attention deficit hyperactivity and / losses Small memory)
- Practical:
 - Brain protocol processing (on feet)
 - Treatment protocol of consciousness (on feet)
